Response to Arguments

Applicant's arguments filed on 5/05/2005 have been fully considered but they are not persuasive.

Applicant argument regarding the limitation where the tone is converted to commands to operate on the text, Cruickshank, teaches where the network allow the user to provide instruction to operate the objected data (text file generated from speech) using speech command or commands entered through DTMF tones by way of DTMF tone recognition means (Fig.5; abstract)
